SAFEGUARD® Hi-Traction® Covers

Deliver Firm Footed Traction From the Top to the Bottom of Your Onshore/Land Drilling Rig

Oil & Gas drillers encounter tough working conditions going head to head with the physical demands and the tough environmental elements. The last things your workers need are unsafe slippery conditions that lead to slips and falls. Since 1992, Safeguard Technology has been manufacturing Hi-Traction® Anti-Slip Covers for steps, walkways, and ladder rungs to help ensure worker safety on onshore/land rigs throughout the world.

SAFEGUARD® Hi-Traction® Safety Covers Are:

- Choose 1.2 mm (18 ga.) #316 Stainless Steel, G90 Hot Dipped Galvanized Steel, and/or Pultruded FRP/GRP Composite (Fiberglass).
- Order in a range of standard safety colors, two-tone configurations, custom colors and photoluminescent "glow-in-the-dark" options.
- Excellent solution to onshore/land rig Monkey Board Fingers which are an extremely hazardous area.
- For additional safety, our Step Covers wrap over the leading edge, where most slips occur.
- Delivers your safety messages with embedded PPE symbols, logos, and descriptive markings.
- Easily installs with fasteners or adhesives.
